Resistance

Theme: WHO IS WINNING THE ANTIBIOTIC RESISTANCE WAR: BACTERIA OR MAN?

Date: 18th - 20th March 2015

Venue: GIMPA Conference Centre, Accra, Ghana

Call For Papers

Introduction/background

Antimicrobial drug resistance is now a global treat, and Ghana has not been spared from this problem. Currently, multiple drug resistant organisms are circulating/ causing disease in our hospitals as well as in our communities. This conference will educate, create awareness and disseminate research findings mainly from Africa, ADMER project and worldwide. The conference also brings together experts in the subject matter and offers opportunities for discussion and dialogue on future containment of antimicrobial drug resistance. For more information visit: <http://www.admerproject.org>

Conference sub-themes

- Antibiotic resistance in Enterobacteriaceae
- Quality of antibiotics
- Antibiotic resistance in Gram-Positive organisms
- Antibiotic use and consumption
- Antibiotic Resistance in Other Gram-Negative Organisms
- Antibiotic Policy
